Skills

- Python
- MySQL
- MS SQL Server
- Tableau
- MS Power BI
- MS Excel
- Relational Databases
- Process Automation
- Analysis
- Visualization
- Statistics
- Project Management
- Machine Learning
- R, RStudio
- Reporting

Projects

[See Portfolio](#)

Statement of Loans of The World Bank

[YouTube Showcase](#)

[Link to Project](#)

See how the World Bank lends money, which countries, amounts due and more in this real-time real-data fully automated multiplatform process. Using Python for data extraction, transformation and insertion into databases built in MySQL and MS SQL Server, visualized in Tableau, Power BI and Excel dashboards.

Predicting House Prices

[Link to Project](#)

Predict the sale price of your house. Used Python for Machine Learning and created a Feature Analyzer.

Asset Analyzer

[Link to Project](#)

Analyze assets like stocks, commodities or crypto for trading and investing strategies with my Python module with classes and functions. Including analyses of the S&P 500, oil, health care and more.

Pizza Sales Report

[Link to Project](#)

Look at how the business is performing in this interactive report dashboard in Tableau combined with MySQL to import data and extract relevant insights about a year worth of data about all pizza orders.
